

Hardik Patil

Full-Stack Web Developer | MERN Stack | SaaS & Real-Time Apps

Mumbai, Maharashtra | P: +91-8421598165 | hardikpatil894800@gmail.com | linkedin.com/in/hardikpatil0 | github.com/HardikPatil0 | hardik-portfolio-v2.vercel.app

WORK EXPERIENCE

Forage

September 2025

Cybersecurity Analyst Virtual Internship

- Completed real-world **IAM (Identity and Access Management)** tasks in a simulated enterprise environment.
- Conducted **IAM strategy assessments** and recommended access control improvements.
- Developed and documented custom IAM solutions aligned with platform integration requirements.

Software Engineering Virtual Internship (TCS Job Simulation)

October 2024

Software Engineering Virtual Internship

- Performed hands-on tasks simulating **security risk analysis** in leaked password datasets.
- Analyzed **authentication vulnerabilities** and recommended mitigation strategies.
- Produced internal documentation outlining technical findings and remediation steps.

PROJECTS

Voting System | React, Vite, Node.js, Express, MongoDB, JWT

2024

- Developed secure multi-user voting workflows with **role-based authentication and JWT token security**.
- Built REST APIs for candidate management, vote submission, and result tallying.
- Architected MongoDB schema for user, vote, and session data with modular folder structure.
- Used for college elections; implemented responsive UI and stateful interactions using React.

TaskForge – Project & Task Management SaaS | React, Node.js, Express, MongoDB, Redux Toolkit, Tailwind CSS, Razorpay

2026

- Built a full-stack **SaaS application** for managing projects and tasks with secure user authentication.
- Implemented **subscription-based payment system using Razorpay** with backend order creation and payment verification.
- Developed complete CRUD functionality for projects and tasks with role-based access control.
- Designed an interactive **dashboard with analytics and progress tracking** for improved team productivity.

Saffron Smoke – Restaurant Website | React, Tailwind CSS, Sanity CMS

2026

- Built a modern restaurant website with menu viewing, table booking, and contact features.
- Integrated **Sanity CMS** for dynamic menu management and content updates without code changes.
- Designed fully responsive UI using Tailwind CSS for seamless experience across devices.

Real-Time Video Communication App | React (Vite), Node.js, Express, MongoDB, WebRTC, Socket.io, Tailwind CSS

2026

- Built a full-stack **video conferencing platform** with WebRTC for peer-to-peer encrypted video/audio communication.
- Implemented real-time **chat, file sharing, and collaborative whiteboard** using Socket.io across multiple participants.
- Developed meeting code system for creating and joining sessions; secured with JWT authentication.
- Leveraged DTLS encryption and SRTP media protection for secure peer-to-peer streams.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS

Frontend: React, Tailwind CSS, Redux Toolkit, Vite

Backend: Node.js, Express.js, EJS, Socket.io, WebRTC, REST APIs

Database: MongoDB, Sanity CMS

Tools & Deployment: Git, GitHub, Vercel, Render, Postman, Razorpay

Other: JWT Authentication, Role-Based Access Control, IAM, WebRTC, Payment Integration

EDUCATION

St. John College of Engineering and Management

B.Tech in Electronics and Computer Science Engineering | Mumbai University

Palghar, Maharashtra

Nov 2022 – 2026
